

# MOTOR VEHICLE ASSESSMENT REVIEW FORM

## MOTOR VEHICLES WITH HIGH MILEAGE OR OTHER FACTORS AFFECTING ITS VALUE

Most motor vehicles come to the Assessor's Office with values supplied by the N.A.D.A. pricing guide. We use the estimated retail price taking into consideration the year, make, model and assume an average condition for your vehicle.

If your vehicle has high mileage or any other factors affecting its value you need to bring this information to our attention, so that we can adjust the assessment value of your vehicle accordingly. **It will be your responsibility to notify this office of the current status of your vehicle each year on or about October 1<sup>st</sup>.**

Once the Grand List is signed, the Assessor is unable to adjust assessments and you will be required to appear before the Board of Assessment Appeal.

Information Required:
