INVESTMENT PERFORMANCE REVIEW: QUARTER ENDED SEPTEMBER 30, 2017

Under the Defined Benefit Fiduciary Governance Calendar FIA’s third quarter focus is on Asset/Liabilities. Mr. Rowlins from FIA noted that the Board had just heard from the Plan Actuary and that based on their presentation, FIA did not see a need at this time to change the Plan’s asset allocation.

In regards to investment performance, total Plan assets at September 30, 2017 stood at $90,604,251 an increase of $4.9 million. Of the increase, $2.9 million was due to investment gains and the balance was due to contributions. For the quarter investments returned 3.4% which was .1% below the blended benchmark. Calendar year to date investments gained 10.9% which was .2% above the benchmark.

By asset class;
Fixed Income earned 1% for the quarter and 3.9% for the calendar year. The Prudential Total Return Bond Fund was a strong performer during the quarter earning 1.4%.

Domestic equity earned 4.5% for the quarter and 13.4% for the calendar year. The Vanguard Explorer Value Fund was the strongest performer in this category returning 5.5% for the quarter and 8.4% for the year.

International equities returned 5.8% for the quarter and 24.3% for the year to date. American Funds’ EuroPacific Growth Fund was the top performer in this category. Also of note, FIA put the Aberdeen Emerging Markets fund on their watch list because of performance issues and Aberdeen’s merger with Standard Life which occurred in August 2017.

The Barings Core Property Fund returned 2.2% for the quarter and 5.0% year to date. Mr. Rowlins noted that the fund was also placed on FIA’s watch list due to management changes however FIA was not too concerned about the Fund at this time.

The Inflation Protection component of the portfolio returned 3.6% for the quarter but was at a -3.6% for the calendar year. The Van Eck Global Hard Assets fund had a good quarter returning 8.5% but for the calendar year to date they were at a -9.1%.
The Asset Allocation component which is made up of the Wells Fargo Asset Allocation Fund returned 3% for the quarter and 11.5% year to date. Both were below the Fund’s blended benchmark.

Mr. Rowlins also presented the results for the investment portfolio for the month of October, 2017. At October 31, 2017 the portfolio stood at $91,589,750, an increase of 1.4% for the month and 12.4% year to date. Domestic and International equities were strong performers for the month with both returning 2.4%. Mr. Rowlins did not have any recommendations for changes to the portfolio at this time.

There being no further business, Mr. Miller made a motion to adjourn the meeting. The motion was seconded by Mr. Porter and approved. The meeting adjourned at 5:29 p.m.

Respectfully submitted,

Joseph Swetcky, Jr.
