Town Plan & Zoning Commission

Amendment to the zoning regulations to add Article II, Section 32 Midpoint Development District, amend Article IV, Section 5.A.3: Sale of Alcoholic Beverages and Article I, Section 9. Definitions. Town Planner DeVoe presented the proposed text amendment for the Midpoint Development District. This amendment is tied to three specific sections of the Plan of Conservation and Development (POCD); Midpoint Development District Sections 9.1, 9.2 and 9.3. This amendment is not a zone change for these parcels. Town Planner DeVoe reviewed the existing zoning designations and uses which he noted can be more intensive. The amendment provides trail realignment potential; redevelopment of a vacant/deteriorating industrial building and more control over the future development of this area. Letters of support were received for the record from Central Connecticut Chambers of Commerce dated November 13, 2019; Farmington Economic Development Commission dated November 13, 2019; Jeffrey Scott dated October 29, 2019; Farmington River Watershed Association, Inc. dated November 13, 2019.

The Commission asked for and received clarification regarding development of trails, requirement to keep small town feel, traffic, and building height. The current C1 zone allows building height up to 40 feet and the proposed regulation building height limit is 42 feet. Full text amendment is on file in the Town Clerk’s Office and Planning Office.

Jay Bombara, 13 Mountain Road, thanked the Commission and Town Planner for openness through this process. Mr. Bombara asked for clarification on whether or not a site plan is required up front if an application is submitted to apply this Midpoint Development District. Town Planner DeVoe responded an application to change the zone would include a concept development plan. If the zone change and concept plan were approved then a site plan would be
submitted to the Commission for consideration. Mr. Bombara expressed concern regarding the aesthetics of a three-story building and potential density of development.

Evan Cowles, 148 Main Street, expressed concern with potential building height and development density.

Brian Connolly, Chair of the Economic Development Commission, read the November 13, 2019 letter of support into the record.

Commissioners asked for clarification regarding purview and the legislative versus administrative powers of the Commission.

The public hearing closed at 8:23 p.m.

Upon a motion made and seconded (Doeg/Pogson) it was

VOTED: 4 in favor to 2 opposed (St. James, Pogson) to approve the Town Plan & Zoning Commission amendment to the zoning regulations to add Article II, Section 32 Midpoint Development District, amend Article IV, Section 5.A.3. Sale of Alcoholic Beverages and Article I, Section 9. Definitions.

Commissioners voting favor of the text amendment felt it gives the Commission much more discretion over development of the Midpoint Development District as opposed to the existing zoning designations and potential development.

Commissioners voting in opposition to the text amendment voiced concerns that 3 stories was too high and that it would have an adverse effect on the wild and scenic designation of the Farmington River.

PLANNER’S REPORT

5 Corners Bistro – 354 Colt Highway

Rooftop unit screening material was presented for the Commission to consider. The material is the same material used at the new Wood-n-Tap at 1593 Farmington Avenue. Colors presented were white, black and gray. The Commission came to consensus that this material was also appropriate for 354 Colt Highway and asked that the gray shade be used in the construction of the screening.
