II. DEFINITIONS

Capital improvement projects are defined as infrastructure or equipment acquisitions or construction that results in a capitalized asset with a value of at least $25,000 and a useful life of at least five years.

Pay-as-you-go financing is defined as financing that is derived from revenue sources other than debt issuance. Revenue sources could include: appropriations from the operating budget, grants, and fund balance appropriations.

III. POLICY STATEMENTS

1. The Town will strive to maintain a high reliance on pay-as-you-go financing for its capital improvements. The Town’s objective will be to contribute to the Capital Improvement Program, at least 2.5% of the annual General Fund revenues allocated to the operating budget.
2. A minimum of 20% of all capital improvement project costs contained in the seven-year plan should be financed on a pay-as-you-go basis.
3. The Town will utilize debt obligations only for acquisition, construction or remodeling of capital improvement projects that cannot be funded from current revenue sources or in such cases wherein it is more equitable to the users of the project to finance the project over its useful life.
4. Any long-term debt that is issued for to finance a capital project shall have a maximum maturity of the earlier of: (1) the estimated useful life of the capital improvement being financed; or, (2) twenty years.

IV. RESPONSIBILITY FOR POLICY

1. Annually, a seven-year capital improvements program will be developed by the Town Manager that analyzes all anticipated capital expenditures by year and identifies associated funding sources.
2. The Town Manager will coordinate the development of the capital improvement program with the development of the annual operating budget.
3. The Town Manager will submit the seven-year capital improvements program to the Town Council for review and approval in accordance with the timeline established in the annual budget schedule.

4. A prior year capital project status report shall be presented to the Town Council for information purposes when the proposed capital improvement program is reviewed.

5. The Town Council will review, modify and adopt the seven-year capital improvements program as part of the annual budget review process. The first year of the adopted seven-year capital improvements program will be the Capital Budget for the next ensuing fiscal year and funds shall be included in the annual operating budget to finance these projects as indicated. The projects shown in years two through seven, although only for planning purposes, shall be scheduled to be consistent with the infrastructure needs of the Town and the Town’s ability to pay.

6. Appropriations made in prior years for which expenditures have not been incurred nor projects started will be reevaluated and incorporated into appropriations for the new fiscal year.

7. The Town will maintain a capital project monitoring committee composed of town staff. The committee will meet monthly to review progress on all outstanding projects as well as to revise spending projections.

8. If new project appropriation needs are identified at any time during the fiscal year, the funding sources will be identified and a request for mid-year adjustments will be submitted to the Town Council for approval. The Town Council may increase the appropriation for a given capital project provided a corresponding appropriation decrease is made to another capital project, so as not to alter the overall appropriation to the Capital Projects fund.

9. Each year a closing resolution will be submitted to the Town Council to obtain formal authorization to close completed capital projects.

10. The Town will maintain a schedule of all fixed assets with values of at least $25,000. In addition, the Town will maintain a listing of capital infrastructure that will be used to develop maintenance and replacement schedules for all assets through the capital improvement program.

MOTION:

To review and approve the attached Reserve Policy.
TOWN OF FARMINGTON, CT
RESERVE POLICY

I. PURPOSE

The purpose of this policy is to 1) preserve the credit worthiness of the Town for borrowing monies at favorable interest rates; 2) provide working capital to meet cash flow needs during the year and 3) attempt to stabilize fluctuations from year to year in property taxes paid by town taxpayers.

II. POLICY STATEMENT

Fund Balance is an important indicator of a community’s financial position. An adequate fund balance must be maintained to allow the Town to continue to meet its obligations in the event of an economic downturn and/or unexpected emergency. Therefore, the Town of Farmington shall maintain an unreserved/undesignated general fund balance as of June 30 of each year equal to a minimum of 10% of the ensuing fiscal year’s operating revenue, with a targeted maximum of 15% of the ensuing fiscal year’s operating revenue.

III. RESPONSIBILITY FOR POLICY

As part of the annual budget preparation process, the Director of Finance will estimate the surplus or deficit for the current year and prepare a projection of the year-end unreserved/undesignated general fund balance. Any anticipated balance in excess of the targeted maximum unreserved/undesignated fund balance may be budgeted to reduce the ensuing year’s property tax levy or fund one-time capital projects.

Appropriation of any amount of the unreserved/undesignated general fund balance, which would result in fund balance falling below the target minimum of 10%, for the sole purpose of reducing the ensuing year’s property tax levy, may only be made upon a 2/3 majority vote of the Town Council.

Subject to the provisions of Article X of the Town Charter (Town Meetings), the Town Council, by a 2/3 vote, can declare a fiscal emergency and withdraw any amount of general fund balance for resolving the emergency. The Town Council must restore any such appropriation of Fund Balance within a three-year period.
IV. OTHER FUNDS

In addition to maintaining adequate reserves to fund general fund obligations, the Town shall maintain reserve levels in other funds as follows:

The WPCA Fund will maintain reserves to meet three primary objectives. First, an Operating Reserve will be funded to ensure sufficient funding for operations. This reserve will be maintained at a level sufficient to fund 90 days of budgeted operating expenditures. Second, an adequate reserve will be maintained to ensure repairs to and replacement of infrastructure. Finally, a Working Capital reserve will be funded to provide sufficient cash for sewer capital improvements and to avoid large fluctuations in rate changes.

This policy shall be reviewed on a biennial basis during the month of January in each even numbered year.

Agenda Item N-5

To review and approve the attached Employee Health Self-Insurance Fund Reserve Policy.
The Town of Farmington and The Farmington Public Schools
Employee Health Self-Insurance Fund
Reserve Policy

I. Purpose

The purpose of this policy is to provide a standard for the appropriate level of reserves that should be maintained in the employee health self insurance fund and for defining the processes: (a) to maintain their adequacy, and (b) cover plan expenses in the event of a reserve inadequacy.

II. Policy Statement

It is the intention of both the Town Council and Board of Education of Farmington to adequately fund the liabilities of their respective health insurance plans and provide sufficient financial resources to fund any unexpected increase in claims over the budgeted claim level. Accordingly, the Town and Board of Education will fund an Incurred But Not Reported (IBNR) reserve and an Excess Claim Reserve.

IBNR Reserve

The IBNR reserve shall be established as of June 30 of each fiscal year at a level deemed appropriate by the Town Council and Board of Education, after consultations with Town and School insurance consultants and insurance vendors and after testing and verification by the Town’s independent auditors. The IBNR reserve shall be fully funded. Any insufficiency in the IBNR reserve will be funded from the Excess Claim Reserve.

Should the IBNR reserve fall below the established level and the excess claim reserve have insufficient resources to restore the IBNR reserve to its established level, then the Town and Board will take steps to restore the IBNR reserve to its fully funded status by budgeting for the shortfall in the next budget cycle. This will be done on a proportional basis, the proportion to be determined based on each entity’s expected claims for the next fiscal year. However, no entity shall contribute an amount greater than 80% of the amount required to be contributed.

Excess Claim Reserve

In addition to the IBNR reserve, the Town and Schools will establish an Excess Claim Reserve to fund claims in excess of the expected claim level. The desired reserve level shall be in a range between 7% - 11% of annual expected claims.
Claim Reserve Maximums

Considering that a plan year following a poor claim year in which all or most of the claim reserve was expended would result in a substantial health care budget increase, the Town and Schools recognize that an Excess Claim Reserve of between 7% - 11% would be desirable and thus there is no formal maximum to the Excess Claim Reserve. Moreover, money cannot be withdrawn from the Excess Claim Reserve for self-insurance purposes until the combined IBNR and Excess Claims reserves exceed twenty-five percent (25%) of annual expected claims.

Should the combined reserves exceed 25% then each entity will be credited with a proportional amount of the excess above 25% to put towards the funding of their subsequent year’s expected claims. The proportion to be determined will be based upon the proportion that each entity contributed to the excess reserve in the preceding 24-month plan period. However no entity will receive less than an amount equal to 20% of the amount to be distributed.

III. Budget Requests

During the annual budget preparation process the Town Manager and the Superintendent of Schools will include in their respective budget requests sufficient budget amounts to cover expected claims for the upcoming year plus additional funds to fully fund the estimated IBNR level and such additional amounts as may be necessary to fully fund the excess claim reserve pursuant to this agreement. It is recognized that achieving these targets in one year would be difficult. Therefore, the Town Council and Board of Education would meet the IBNR standard and at least the 7% excess claim reserve standard within three years after adoption of this policy.

IV. Procedure for Covering Claims When Reserves Are Not Sufficient

Shortfall

If at any time during the Plan Year either the Town Manager or the Superintendent or both determine that there are insufficient revenues and accumulated reserves to meet the immediate claim expense obligations of their respective plans they will immediately report such findings to their respective policy bodies.

The Town shall make available sufficient cash to either the Town self insurance plan or Schools’ self insurance plan to permit each employer to meet its obligations to fund the
self-insured cash account for claims incurred on behalf of its employees for the balance of that fiscal year.

If at any time during the Plan Year, either Town staff or the school staff or both determine that it is likely that there will be insufficient revenues and accumulated reserves to meet claim expenses, they will report such to their respective policy bodies at their next regular meeting. The report shall include the following information:

1. Provide a projection of the fiscal year end shortfall in expected paid claims;
2. Utilization information indicating current and/or projected paid claims;
3. Identify any self-insurance revenue variances from what was originally budgeted.

Following the Board of Education’s review of the school projection, the information will be transmitted to the Town Council. The Town Council after reviewing the self-insurance financial report(s) provided by the Town and/or Board of Education, will determine the amount of, if any, additional appropriation to be made to the Town or Board or both to meet claims payments during the remainder of the Plan Year. In making their determination, the Town Council will consider all of the information provided by the Town Manager and Board of Education.

Any supplemental appropriation approved by the Town Council will be made in three equal payments directly to the Employee Health Self-Insurance Fund over the balance of the Plan Year. If at anytime after an additional appropriation is made, it is determined that the full appropriation will not be needed, then the amount not needed will not be paid to the Fund or if already paid, the amount will be withdrawn from the Fund and returned to the General Fund.

This policy shall be reviewed on a biennial basis during the month of January in each even numbered year or at any time in between, if requested by either the Town Council or Farmington Board of Education.
