NEW BUSINESS

Morin Paving – Devonwood Drive

Restoration of disturbance within upland review area. Tabled from the July 6, 2016 meeting. Kevin Morin was present to answer questions regarding the disturbance on the north and south side of the culvert in the upland review area on Devonwood Drive. He also stated they are having a hard time finding an engineer that isn't too busy to work on a plan regarding maintenance work in the channel leading to the culvert. Assistant Planner Rutherford provided an update regarding the restoration plan for the disturbance. It was suggested that the proposed restoration plan can be replicated on the north side of the culvert in addition to the south side. Mr. Morin stated he would like to start planting as recommended as soon as possible. The Commissioner suggested late summer or early fall. There was some discussion regarding maintenance of the channel to get the water to flow properly under the road. An engineering plan would need to be submitted as part of a separate application.

Upon a motion made and seconded (Quigley/Isner) it was unanimously

VOTED: To approve the recommended restoration plan dated July 14, 2016 with the condition that the same plan be duplicated on the north side of the culvert as well. Prior to work beginning the plan shall be submitted to staff for review.
