

TOWN OF FARMINGTON ROAD REPAIRS & RECONSTRUCTION PLAN

The Department of Public Works is responsible for the construction, maintenance, and repair of approximately 125 miles of Town roads. A complete inventory of every street in Farmington and Unionville is conducted annually. Visual inspections and street surveys are conducted to analyze overall road conditions and the volume of traffic each road receives. Specific road repairs are then recommended and street conditions are prioritized in the most economically efficient order, while also considering future slated improvements (municipal, state, utility, or otherwise).

***Each year's list is finalized, pending budget funding and Town Council authorization. Please note, work to be performed is subject to adjustment based on factors such as funding, scheduling, etc.**
